

Hi, this is Deidre from the SWORPS Help Desk. In this segment, we'll be learning how to login to the TN ELAP data entry application.

First, you'll select the TN ELAP live site link from tn-elap.org or you can type in the following URL: elap.sworps.tennessee.edu and it will direct you to the login screen.

Now, enter the username and password that you used to register your account.

If you've forgotten your password, just click this link. Otherwise, click Log In.

This is the user agreement. Please read the user agreement and accept before continuing. If you have any questions about the user agreement, please email sworpshelpdesk@utk.edu

Now you'll be directed to the rest of the site.

To get started, choose the grantee and center to continue. These grantees and centers should be the same ones that you selected during the registration process.

My grantee is SWORPS Site. The grant type is CCLC. And the center, we'll use SWORPS Test Center Two.

This will give you a list of additional options, which we'll go over in future trainings.

And that's how you log in to the site. If you encounter any difficulty, just let us know. We can be reached at sworpshelpdesk@utk.edu

Thank you.
