APR WINDOW 2 Narrative Guidance

Please use the following text for the narrative sections of APR Window 2 where you are asked to explain why you have "Unavailable" student data.

PLEASE NOTE: The gray sections are to be updated using the identified ELAP reports before entering the text into the Narrative Box.

For State Assessment:

The data is not "unavailable" but rather not applicable. While state assessment data was entered for most, if not all of our students, only [insert the ## from second row of reportable sums column in GPRA State Assessments Report] met the second reporting condition: having a state assessment score capable of improving in the previous year (2020-2021).

For GPA:

The data is not "unavailable" but rather not applicable. While grade point average data was entered for most, if not all of our students, only [insert the ## from second row of reportable sums column in GPRA Grade Point Average Report] met the second reporting condition: having an unweighted GPA below 3.0 in the previous year (2020-2021).

For Attendance:

The data is not "unavailable" but rather Not Applicable. While attendance data was entered for most, if not all of our students, only [insert the ## from second row of reportable sums column in GPRA School Day Attendance Report] met the second reporting condition: missing at least 10% or more days of school in the previous year (2020-2021).

For Behavior:

The data is not "unavailable" but rather Not Applicable. While in-school suspension data was entered for most, if not all of our students, only [insert the ## from second row of reportable sums column in GPRA Behavior Report] met the second reporting condition: receiving 1 or more in-school suspension in the previous year (2020-2021).
